

CUSTOMER SERVICE SOLUTION

Why tie your customers down to the range of expensive, unsanitary pagers? Free your customers to complete other activities while waiting for their service and it will enhance their experience and satisfaction with your establishment.

Whether you operate a restaurant, auto repair shop, doctor's office, beauty shop, pharmacy or any other business that needs to communicate with their customers, the Ready-For-You (RFY) system is for you! Long gone are the days when you needed to buy expensive paging systems that literally tethered customers to your building. The Ready-For-You system allows you to easily and affordably communicate with your customers via text message or email!

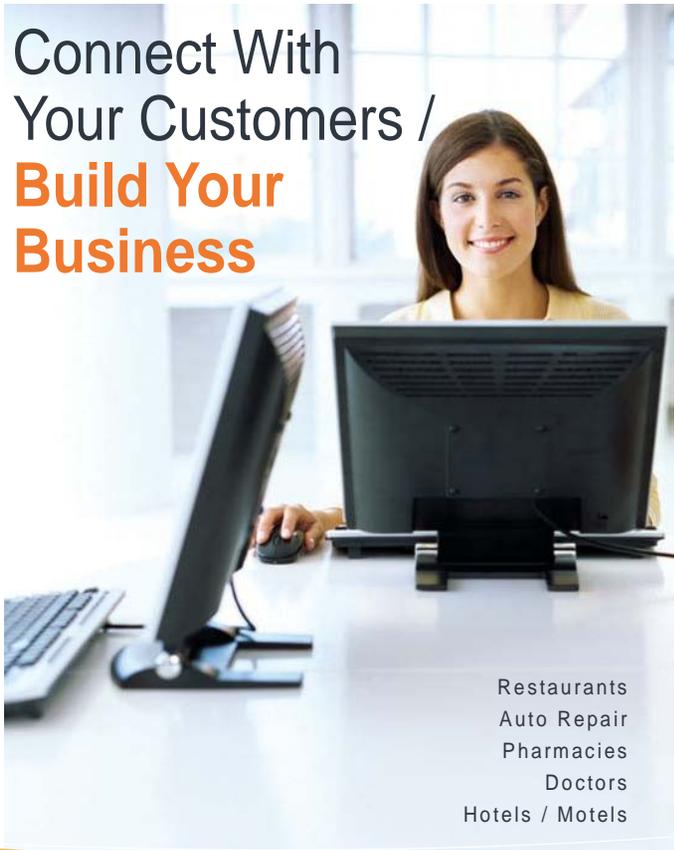

In addition, Ready-For-You provides a method to market to your customers via email or text coupons and updates!

- Affordable solution / no hidden charges.
- Customizable to fit your needs.
- The only bi-directional communication system.
- Marketing tools including email and SMS campaigns
- Easy to use
- Online live support available.

Ready-For-You (RFY) works for your business.

LET YOUR CUSTOMERS KNOW: "WE ARE READY-FOR-YOU!"

Ready-For-You provides a fast, affordable way to directly communicate
With and market to your customers
Using the latest technology!

The Ready-For-You (RFY) system was designed to provide a robust, reliable way for businesses to interact with their patrons. Whether it is a patron waiting to be seated at a busy restaurant, a patient waiting to be seen by a doctor, a guest waiting for a hotel room, or a customer waiting for a car repair to be completed, waiting has become a fact of life. Ready-For-You lets you communicate with your customers to keep them informed of their wait status. Since RFY uses the power of both the internet and cell systems, your message can reach your customer virtually anywhere AND they can communicate back!

A customizable solution for Your business needs

Rather than being tied to expensive, unsanitary and limited paging systems, Ready-For-You (RFY) leverages the power and coverage of the internet with the growing popularity of smart devices & cell phones. A patron is registered in the RFY system and when that patrons' table (or prescription, vehicle, hotel room, doctor, etc.) is ready, the RFY system notifies the patron via text (SMS) or email message.

The way the RFY system is set up, the business also has the ability to send "prenotices" to patrons such as "your table will be ready in 5 minutes".

This allows waiting patrons to complete other activities (such as shopping) they may have been doing while waiting.

Because RFY utilizes the internet and the cell phone infrastructure, coverage is not limited to the small transmitters used by private paging systems. For businesses such as pharmacies, auto repair, and hotels, the RFY system allows patrons to be notified without being on premises.

Finally, the RFY system can send SMS and email notifications, coupons, newsletters and other marketing materials.

CUSTOM SOLUTIONS

The Ready-For-You system is customizable to meet your specific needs. Capture the information you need such as party size, special requests, etc. We can also work with you to import existing customer information.

MULTIPLE PLATFORMS

Your customers can communicate with you via text message or email. They can use their home computer, PDA, smart phone, or kiosk in your establishment. Additionally, the use of QR codes streamlines your customer's connection to you.

eBUSINESS SOLUTIONS

Ready-For-You also provides electronic marketing solutions through targeted email and text message campaigns. E-Coupons, specials, newsletters and more can be delivered easily.

THE RFY SYSTEM:

- NOTIFIES CUSTOMERS VIA TEXT OR E-MAIL.
- PROVIDES BI-DIRECTIONAL COMMUNICATION.
- MANAGES ELECTRONIC MARKETING.

WE'VE WORKED WITH A DIVERSE CUSTOMER BASE. HOW CAN WE HELP YOU?

Contact Ready-For-You or your local dealer today. We will custom tailor a solution for any business or civic organization.
